Addendum

Addendum # 001

October 22, 2024

Project Number: 4771

Project Name: Washington Group Home Roof Replacement

Project Location: Washington Group Home

4771 Washington Ave Ravenna, Ohio

The following is an addendum to the Washington Group Home Roof Replacement.

1. The approximate square footage of the roof is 5,600 square feet. The 2,600 square feet in the scope of work is a typo.
2. The entire roof is being replaced. We would like pricing for asphalt shingle replacement and ribbed metal roof replacement separately. If the metal option is selected, the furring strips can be installed on top of the existing shingles.
